

Unidapt System Counterbore (English)

These counterbore inserts are used in conjunction with the Unidapt Adapter or Morse Taper Sleeves. The LINK counterbore is designed to drill and counterbore in a single operation and to allow for sufficient clearance for a standard socket head cap screw.

Fits Holder Size	Part No.	English Screw	Drill Diameter	Counterbore DIA	Drill Length	Overall Length
UA3	60-L2-293	#5	.138	.220	1/4	1-7/32
